## Certified Bermuda Onion Plants Strong, Sturdy and Healthy Stock

Grown on new land where there is no chance of plants becoming infected with Pink Root. All plants are inspected and certified by State Inspectors before shipment.

Bermuda Onion Plants are easier to grow and produce a crop earlier than either seed or sets. Try one-quarter acre and have some money coming in early. 1/4 acre requires 10,000 plants set 3 in. apart in rows, and rows 3 ft. apart. Crate lots shipped from SOUTH TEXAS, from which point you pay express charges. Express charges on crate lots average about 60c to points in territory served by our Dallas store. Less than crate lots are shipped from DALLAS store, Postpaid.

Notice: Onion plants are tied in bundles of approximately 100 plants. Bundles may vary slightly, some containing a few less than 100 plants and some a few more.

## FROST PROOF CABBAGE PLANTS

### Frost Proof Cabbage Plants Tough and Well Hardened

Use our tough, hardy, field grown plants and get big early season prices for your crop. Our plants are frost proof and will live through a light freeze when tender hothouse or spindling cold frame plants usually die. This means early matured crops which usually bring top market prices. We can ship all during January and February, depending on weather conditions.

Varieties: Charleston Wakefield, Early Jersey Wakefield, Copenhagen Market, Early Flat Dutch, Premium Late Flat Dutch.

### Collard Plants (Southern or Georgia)

Our Collard plants will withstand more adverse conditions of soil and climate than cabbage. Shipped from East Texas.

## STRAWBERRIES

Plant strawberries if you want quick returns on your investment. Texas grown strawberries bring big prices in the Northern Markets.

### Standard Varieties

**BLAKEMORE:** This new outstanding early bearer was originated at the U. S. Plant Field Station and is highly recommended for southern growers. Large, bright red berries. Superior market variety.

**EXCELSIOR:** Berries deep dark red, very glossy and attractive. The earliest spring bearing strawberry grown.

**LADY THOMPSON:** The money making strawberry for the Southern States. Medium early.

**IMPROVED KLONDYKE:** This is one of the most largely grown varieties in the South and Southwest. The berries ripen evenly and have good quality, color and firmness. Medium early.

**AROMA:** A late variety with a constantly widening field. The fruit of this variety is very large and bright red to the center.

### Everbearing Varieties

**PROGRESSIVE:** Strong large plants producing fruit of fine flavor and firm texture. One hundred plants will give enough berries throughout the season for the average family.

**MASTODON:** A great new berry. The largest and most productive of the everbearers. Sweet, highly flavored, and a good shipper.
